

Lowest-Cost, High-Quality Essiac Tea AND a 100% Money-Back Guarantee.

At premium-essiac-tea-4less.com, you can save money AND risk nothing when you try essiac tea. The price you pay for essiac tea at premium-essiac-tea-4less.com is a fraction of what you would pay for essiac in a retail health food store. Pay as much as \$39.95 for 1.5 ounces of essiac at a retail store. Our cost for a similar 1 ounce packet of essiac is \$2.99. That's a huge savings for you and a small price to pay for good health.

Daryl Jenks established this website in 2005, although the exact formula we use has been widely used for over 20 years. This website was started so everyone could enjoy the benefits of essiac tea for less due to the use of discount packaging and no retail affiliations that carry significant overhead costs. The eight herb formula we use has led to many satisfied customers. Our manufacturing division has 15 years of experience making and distributing eight herb essiac.

Dr. Charles Bruschi and Rene Caisse, R.N. researched a variety of eight herb formulas and found them superior to the four herb blends. We sell only eight herb essiac on this website. Dr. Bruschi has stated, "Clinically, on patients suffering from pathologically proven cancer, [essiac] reduces pain and causes a recession in the growth; patients have gained weight and shown an improvement in the general health...Remarkably beneficial results were obtained even on those cases at the 'end of the road' where it proved to prolong life and the quality of that life...The doctors do not say Essiac is a cure, but they do say it is of benefit."

The Essiac Tea Ingredients

Blessed thistle is used for digestive problems such as gas, constipation, and upset stomach. This herb is also used to treat liver and gallbladder diseases.

Burdock root is a mild diuretic. It increases the production of both urine and sweat, potentially making it useful in treating swelling and fever. Burdock root might play a role in preventing liver damage caused by alcohol, chemicals, or medications. The exact reason for this protective effect is not known, but it is thought to involve opposition of a chemical process called oxidation, which occurs in the body. One result of oxidation is the release of oxygen free radicals, natural chemicals that may suppress immune function. Antioxidants such as burdock may protect body cells from damage caused by oxidation.

Kelp is a sea vegetable that is a concentrated source of minerals, including iodine, potassium, magnesium, calcium, and iron. Kelp as a source of iodine assists in making thyroid hormones, which are necessary for maintaining normal metabolism in all cells of the body. This increases energy levels and helps make it easier to maintain a healthy body weight. Kelp has the highest nutrient content of the essiac tea ingredients.

Red clover is a source of many valuable nutrients, including calcium, chromium, magnesium, niacin, phosphorus, potassium, thiamine, and vitamin C. Red clover is also one of the richest sources of isoflavones (water-soluble chemicals that act like estrogens and are found in many plants). The isoflavones isolated from red clover have been studied for their effectiveness in treating some forms of cancer. It is thought that the isoflavones prevent the proliferation of cancer cells and that they may even destroy cancer cells.

Sheep sorrel is high in oxalic acid, sodium, potassium, iron, manganese, phosphorous, beta carotene, and vitamin C. This essiac tea ingredient is a mild diuretic, mild antiseptic, and a mild laxative.

Slippery elm bark has been used as a poultice for cuts and bruises, and also for aching joints due to gout or other causes. Besides being an essiac tea ingredient, this herb also helps alleviate sore throats. It is an ingredient in lozenges sold to soothe throat irritation. Since sore throat and cough are often linked, slippery elm bark has been used in cough remedies. It also can ease both constipation and diarrhea.

Turkish rhubarb root. This detoxifying herb is world-famous for its healing properties. Rhubarb root purges the body of bile, parasites and a stagnating food by stimulating the gall duct to expel toxic waste matter. It has been shown to alleviate chronic liver problems by cleansing the liver. Rhubarb root improves digestion and increases the appetite. It has also been shown to help heal ulcers, alleviate disorders of the spleen and colon, relieve constipation, and help heal hemorrhoids and bleeding in the upper digestive tract.

Watercress. High in Vitamin C, watercress is used as a general tonic, and its bitter taste is thought to stimulate the appetite and improve digestion. It can be used to alleviate nervous conditions, constipation, and liver disorders. Watercress is a popular cough and bronchitis remedy. It contains a remarkable substance called rhein, and rhein appears to inhibit the growth of pathogenic bacteria in the intestines. It is believed that rhein is also effective against *Candida albicans*, fever and inflammation, and pain.

Benefits you may receive from essiac tea.

Essiac tea is a versatile herbal supplement used by many people for many different health problems as well as for general health and well-being. Essiac tea treats the body in a holistic fashion, meaning the body is healed from the inside out. The root of the problem is addressed, rather than serving as just a "band-aid" to cover up the symptom.

Essiac tea's primary actions are to remove heavy metals, detoxify the body, restore energy levels, and rebuild the immune system. After this occurs, the body is restored to a level to where it is able to better defeat an illness or disease state *using its own resources*. Everyone comes in contact with viruses and bacteria all the time, and everyone is susceptible to developing health problems. **People only get sick because their body's immune system FAILS to fight off the illness or infection.** Therefore if the immune system is boosted, many illnesses and diseases can be eradicated WITH NO DRUGS.

Here are some of the reported effects and benefits of the blend of eight herbs that make up essiac.

Essiac Tea...

1. Prevents the buildup of excess fatty deposits in artery walls, heart, kidney and liver.
2. Regulates cholesterol levels by transforming sugar and fat into energy.
3. Destroys parasites in the digestive system and throughout the body.
4. Counteracts the effects of aluminum, lead and mercury poisoning--this has important implications for cancer.
5. Strengthens and improves the functioning of muscles, organs and tissues.
6. Makes bones, joints, ligaments, lungs, and membranes strong and flexible, and therefore less vulnerable to stress or stress injuries.
7. Nourishes and stimulates the brain and nervous system.
8. Promotes the absorption of fluids in the tissues.
9. Removes toxic accumulations in the fat, lymph, bone marrow, bladder, and alimentary canals.
10. Neutralizes acids, absorbs toxins in the bowel, and

eliminates both.

11. Clears the respiratory channels by dissolving and expelling mucus.
12. Relieves the liver of its burden of detoxification by converting fatty toxins into water-soluble substances that can then be easily eliminated through the kidneys.
13. Assists the liver to produce lecithin, which forms part of the myelin sheath, a white fatty material that encloses nerve fibers.
14. Reduces, perhaps eliminates, heavy metal deposits in tissues (especially those surrounding the joints) to reduce inflammation and stiffness.
15. Improves the functions of the pancreas and spleen by increasing the effectiveness of insulin.
16. Purifies the blood.
17. Increases red cell production, and keeps them from rupturing.
18. Increases the body's ability to utilize oxygen by raising the oxygen level in the tissue cells.
19. Maintains the balance between potassium and sodium within the body so that the fluid inside and outside each cell is regulated: in this way, cells are nourished with nutrients and are also cleansed.
20. Converts calcium and potassium oxalates into a harmless form by making them solvent in the urine. Regulates the amount of oxalic acid delivered to the kidneys, thus reducing the risk of stone formation in the gall bladder, kidneys, or urinary tract.
21. Protects against toxins entering the brain.
22. Protects the body against radiation and X-rays.
23. Relieves pain.
24. Speeds up wound healing by regenerating the damaged area.
25. Increases the production of antibodies like lymphocytes and T-cells in the thymus gland, which is the defender of our immune system.
26. Inhibits benign growths and tumors.
27. Protects the cells against free radicals.
28. Increases the appetite for healthful foods.
29. Decreases sugar cravings due to better blood sugar control.
30. Increases energy and improved sense of well-being.

Essiac is an herbal medicine used by many in an effort to treat a variety of ailments.

We cannot claim that the herbal medicine essiac will cure a particular disease. We will, however, list some health ailments for which the essiac formula may be of use or help by assisting the body in eliminating toxins and/or building the body's immune system.

1. Internal or external cancer.
2. Tumor growth (benign or malignant)
3. Chronic pain
4. Diabetes
5. Arthritis
6. Kidney and bladder problems
7. Ulcers
8. Liver problems
9. Colon trouble
10. Sinus trouble
11. Gout
12. Pneumonia and chest colds
13. High blood pressure and high cholesterol
14. Diarrhea and constipation

We cannot state that essiac is an effective herbal medicine for these conditions. However, we have received reports from people who took essiac and noticed a benefit in these conditions (which may or may not have any relation to the essiac tea). Essiac as an herbal blend has not been proven by the FDA to have a beneficial effect. However, the eight essiac herbs individually have beneficial properties which have been confirmed by the FDA.

Essiac Testimonials From People With Truly Amazing Testimony.

A handful of our many essiac tea testimonials from people using our eight herb essiac can be found here:

February 15, 2005

"I began purchasing essiac tea at a local health food store after reading about it in some cancer testimonials from survivors. I since found your site online and have ordered and begun using your eight herb essiac tea. I was diagnosed with melanoma in 1999. I had surgery and was told that there was a 99% chance the cancer wouldn't spread. Well, less than a year later a lump in my breast was detected.

I had another surgery and started to look into options at the health food store. I didn't want to live my life going from surgery to surgery and never being sure if the cancer had spread. Well, I've been taking essiac tea since 2003 and your product since late 2004. Knock on wood, I am cancer free and have been since early 2004. I have never felt better in my life, and I sincerely believe it is due to the wonderful tea."

**Paul Grady,
New Hampshire**

"I started taking essiac tea because my friend (who had been taking essiac for her breast cancer) told me that it could be used as a detox and a general health tea. I had been consuming products made with aspartame for awhile, and started feeling a lack of energy, an increase in pain, increase in weight, and depression. I hoped that taking essiac tea would help my "detox" from aspartame.

It's hard to say how far-reaching the effects of aspartame were, but I have never felt better. It's strange, because my energy levels used to drop in the mid-afternoon and in general I felt lethargic much of the time. After just a few weeks on essiac that has vanished, and I feel better than ever. I've also noticed my skin has cleared up and has a rosy glow to the cheeks that I never had before. I'm sleeping very well and waking up refreshed--and it seems I need less sleep now, but I feel much better all day. I plan on taking essiac for life, and the preventive effect against cancer is a definite plus, as cancer runs in my family. For what it's worth, I've been taking two 3-oz. doses per day, about an hour after breakfast and again right before bed.

I tell everyone I know about these essiac testimonials and this wonderful health tonic--I wish I discovered essiac sooner, and cancer runs in my family so this tea has been a godsend."

**Jennifer,
Maryland**

December 2004

"I've been suffering from hypothyroidism and hypoglycemia since 1997, which has lead to a 50 pound weight gain (5-10 pounds a year from 1997 to 2004). I'm on premarin right now. I went online to research herbal remedies because I figured I had nothing to lose (but the weight, ha ha). I came across some essiac testimonials from diabetics and people with hypoglycemia. I decided to order some essiac and give it a try.

Now I've been on it for over six months. Looking back, I realize now that I probably had accumulated a lot of toxins that made my thyroid become sluggish. I say this because not only has the weight began to come off without a change in diet (purposefully, anyway) but I've noticed that my skin has become clear, I feel much more energetic, and my constant headaches have disappeared. I seemed to be in pain for something or other almost all of the time. My family thought I was a hypochondriac. I just feel that my body was highly toxic and I was paying the price.

Sincerely,

Rachel Currier

January 3, 2005

"I need to order some essiac tea. I've been using some that my sister ordered from your website last November. She really believes in essiac tea, and she was so happy she found your site, which offers it at a lower price than we've been able to find elsewhere. She was diagnosed with esophageal cancer in 1991 and the situation was very bad for awhile. She was given a maximum of six months to live. Right around that time she began an aggressive regimen of essiac tea. And she is still here today. She tells everyone who needs it about essiac tea. Getting to my part of the story...

I was diagnosed with lung cancer October 21, 2004. I started chemo and radiation December 5. I was feeling so sick from these treatments through the month of December. It was all I could do to get out of bed. No energy, I felt very depressed. I decided to go with the 6 oz. three times per day of your essiac tea because I am receiving the chemo and radiation. After four days of this regimen I started feeling like I had been before the chemo and radiation...not perfect, but not like I was at death's door, either. I have continued to feel better as the weeks have gone by, and the best news is that the tumor has gone down for the first time as of my last check-up. I will be calling this afternoon to place my order. May God Bless."

**Kenneth Brown,
Oklahoma**

November 2004

"I have had previous experience with essiac tea. I purchased some essiac tea from a friend for my father-in-law about ten years ago. I saw an almost immediate improvement in his health. I can't say for sure what effect it had on his prostate cancer, but it had a positive effect on his psoriasis, diabetes, and asthma for sure. I

am convinced the essiac tea helped prolong his life and, perhaps more importantly, improved the quality of his life during his remaining years. He was able to live pain-free much of the time, and that in and of itself was a blessing."

**Margaret L.,
Nevada**

January 2005

"I started suffering from asthma after repeated bouts of bronchitis in 2003 and 2004. I found myself having to use my inhaler quite often during the day, and eventually experimented with Singulair and Advair. Singulair and Advair worked quite well, although because I don't have insurance I found them to be very expensive.

Someone suggested that I try essiac tea. They gave me a two-week supply to try. I was astounded that my asthma was gone three days later! I've been taking 3 oz. per dose, 3 times per day. I noticed other health benefits as well, so I plan to continue essiac tea. Recently everyone got sick around here, and I did as well, but I got better in two days whereas everyone else, it seemed to take them two weeks.

My husband suffers from asthma to a greater degree than I ever did, and I suggested that he try essiac tea. To his pleasant surprise, he took it during an acute attack and his breathing increased from about 20% capacity to almost 100%, almost instantly. He has tried many asthma treatments including steroid packs and Prednisone. Those treatments are hard on his system and he's glad he doesn't have to rely on them anymore. Thank you so much for offering essiac tea at such a great price. We're telling everyone we know about the wonderful effects of health and well-being we've seen from essiac tea."

**Kristen C.,
Ontario, Canada**

February 24, 2005

"I'd like to order another supply of essiac tea. I have been giving it to my sister (with breast cancer) and my father (diabetes) so I'm already running low. Since my first diagnosis, my ovarian tumor has shrunk 60% and the doctor can't believe it. I am on chemo as well and I'm not sure if the chemo or the essiac is doing the trick, but I'm not going to take any chances. I believe in alternative treatments very much, so I'm partial to attribute my progress to the essiac, but whatever it is I am grateful. I am also thankful to have the chance to read essiac tea testimonials from others who are doing well, it gives me hope."

**Kerry W.,
Texas**

March 4, 2005

"I have been giving this product to my brother for two years now. His cancer has metastasized. His test results have been getting better and better. The doctors do not know I have been giving his essiac tea, but we believe that is what is helping him. I would like to place a bulk order ASAP."

**Kenny,
Colorado**

April 9, 2005

"Essiac tea is amazing. Let me tell you about my mother who has (or had) colon cancer. She is elderly and the doctors warned that she might not survive an operation to try and remove the tumors. We agreed that we would rather have her enjoy her last years as much as possible, living with us etc. rather than be in a hospital trying to recover from invasive surgery. We were on the fence about chemo but decided against it for the time being.

We began giving her essiac tea last November, and we noticed that she seemed happier and more energetic almost right away. However, it wasn't until February that we noticed some dark substance coming from her colon. At first it seemed to be stuck to her skin but after a few days it began falling off on its own while she was bathing. When we went back for testing the doctors said the tumors seemed to be gone. Amazing. My mother continues to take essiac at maintenance dose, and actually the whole family is on it now because cancer runs in our family. Essiac is truly heaven-sent. Please add my account to your cancer testimonials page so that others will know how well it has worked for us."

**Susan Baxter,
New Hampshire**

February 26, 2005

"I've been helping care for my aunt for the past three years. Soon after I took her in they discovered rectal cancer. After debating our options we decided to start chemo and radiation. However, we weren't satisfied to stop with that. I was interested in alternative treatments but I didn't want to go with just anything. My priest recommended essiac tea and of course, prayer and faith. Which we had always kept a part of our lives.

We started with a four-herb essiac, I think it was affiliated with a company called "resperin." I started telling my friends and family that my aunt was taking essiac tea and a couple of people suggested that I try to obtain eight-herb essiac. I found eight-herb essiac a couple of months later (I had her on the four-herb formula for about eight months). She was already starting to show an improvement. Mind you, she was taking chemo and radiation as well, and also cat's claw and a bunch of "antioxidant" vitamins. All we knew was that something was working.

My aunt's last CAT scan showed that she was normal: no cancer anywhere in sight! We were so relieved. It's so scary to not know what is happening or what you can

do. We dropped her back to 4 oz. twice per day; we had been doing three times per day. Now I am told we can drop back further so we will probably do that after her next check-up. Or, we might keep her on twice per day, who wants to mess with what works. We thank God every day for whatever miracle saved my aunt."

**Cassie R.,
Midland, Texas**

March 31, 2005

"I have cancer and I need to order some more essiac tea. I need essiac sent to me as soon as possible. Let me tell you what happened to me..."

I had become very sick with cancer last year. It got to the point that I was told I would be dead by December. I couldn't stay awake for more than a few hours at a time, and I couldn't speak clearly anymore. My tongue had swollen from the chemo.

I heard about essiac tea and tried it as a last ditch effort to save my life. I continued the chemo but added essiac tea to my regimen. I couldn't believe how quickly I noticed an increase in energy. Then my hair started growing back, both on my head and my eyelashes and such. A few months later, all my tumors were gone. My doctor said, "Whatever you're doing, keep it up, this is a miracle!"

I am religious and I believe that faith can heal. In addition, I believe the chemo and radiation helped me. However, I do not think I would be alive today if not for the essiac tea. The reason I say this is because, once my tumors were gone and I felt better, I ran out of essiac and didn't buy more. I didn't think I needed it anymore. Well, I was wrong. My hair started falling out and I had no energy. My platelet count is up again. This started happening a little over a month ago, a few weeks after I stopped the essiac tea. I had been meaning to get more but I kept putting it off. My friend gave me some other tea to try, he called it "miracle tea." I don't know what was in it, but it did nothing for me. It's not like essiac. Now I feel desperate: I need to get more essiac in me. I feel like crap without it and I'm worried that my tumors will come back, if they haven't already.

My doctor is worried also because I am obviously slipping. He says he can't recommend essiac (which makes me so angry!) but we both know that it's the only thing that has changed in my regimen. I recommend that everyone with cancer take essiac. I believe you should take traditional treatments like chemo in addition to essiac for best results. All I can go by is how I reacted, but it truly has been a miracle for me. Essiac tea is absolutely amazing and I feel it saved my life."

Heather

January 2005

"We never had essiac tea before, but I know it helped my dad last year with the cancer on his spine.

After my dad came home from the hospital, the week before Christmas in 2003, he was on oxy-cotin, and was in pain (They radiated his 'whole' spine). Basically, they

sent him home to die. I brought him essiac and he started taking it, just to appease my sister and I. Two days after taking the essiac tea, his pain went away. His pain went away after two days, no more pills, and his cat scans were very good, the doctors were amazed.

However my dad is a retired electrical engineer and thinks prescription drugs are the way to go, not 'voodoo' stuff. Of course, he didn't attribute getting well to the tea. I keep saying, 'God made herbs.' He stopped the essiac tea in the spring. The cancer did spread again in the summers and now he is in a cancer 'vaccine' testing. He has some at his house if he so chooses (It is hard for my parents right now, since their youngest, my brother passed away at age 34 on Sept 15). I have seen this works and with our colds and knowing what we really eat, what is contained in our milks beef, and chicken--we like the idea of purging cancer causers from our bodies. The tea we got my dad was not the 'original' essiac tea, which is why I did buy in bulk from you. Thanks for offering it to us at a great price.

God didn't give me a gift to 'write'..but I still try."

Sincerely,

Karen

May 9, 2005

Hi, so far I love your product. My lab results showed me in the non-diabetic category for the first time and ALL my results improved (I have been on 9oz/day for close to a month now).

I also have, for the 1ST TIME! other normal (average range) lab results. Not to mention what it has done for my C.F.S. (Chronic Fatigue Syndrome) and overall energy level. My only regret is that your product hasn't made me quit smoking (yet!).

God Bless,

Jonathan

April 2005

"One of my friends was diagnosed with Chronic myeloid leukemia (CML) in 2003. She was sick with infections and fevers almost all of the time. She also developed anemia (her red blood cells were very low). Upon her practitioner's recommendation she began to take essiac tea along with chemotherapy.

After four months on essiac tea, to our surprise her body seemed to have rid itself of leukemia cells. The hematologist found her completely normal when he did the bone marrow aspiration. We went to a pathologist as well to confirm the diagnosis, and he agreed that the cancer was gone."

Elizabeth

Industry-Exclusive Money-Back Guarantee

Please don't think too much about giving essiac a try, because you don't risk a penny when you try essiac tea from our company! We're not aware of ANY other company as confident in their product as to offer a money-back guarantee.

All our customers are covered by a six month 100% money-back guarantee! You won't find another essiac company willing to make this offer!

Here's how the money-back guarantee works

Order essiac and give it your own personal "test run". Take it for a full six months. If you haven't experienced any benefit from essiac tea, simply return the remaining portion (if any) and we'll rush you a complete refund. No questions asked.

All we ask is that you take essiac at the suggested dosage level for five months. If you haven't experienced any benefit, you may return the remaining portion to us and receive a full refund for the amount paid for your essiac. This money-back guarantee is based on the "honor system".

Please contact Daryl. Toll free @ 866-840-3389 or email at daryl@premium-essiac-tea-4less.com

Our Pricing

We are able to offer you such great prices because we move hundreds and sometimes thousands of pounds of essiac per week. This means that we are able to buy our herbs at a discount, and mix and package them more efficiently.

Our low cost is due to our volume of sales and our hard work setting up our arrangements with the national herb companies (NOT poor quality). In fact, we always use fresh, pesticide-free herbs. They are mixed on a daily basis immediately before packaging. Our formula contains no chemicals or any additional substances other than the eight essiac herbs.

We feel it is important that this alternative treatment used for cancer and many other health problems is available to the public for a fair and reasonable price. The average retailer makes a huge profit margin on their essiac. We are accepting a much lower profit margin, but we believe that we will make up for that with more orders than every other company. We know that we have a quality product at a great price, and it's just a matter of time before more and more people know about us.

Our eight herb formula comes to you fully blended and manufactured so that the ratios of herbs are maintained even when you purchase a large bag of pre-mixed herbs from us. All of our herbs are organic and come from highly reputable companies. You have the choice of ordering in bulk packaging and weighing doses yourself (only needs to be done once every 2 weeks) or letting us do the “dirty work” and ordering your herbs in bundles of 1 oz, 4-oz, or 16 oz packets/bottles from us.

How to Order Essiac

The fastest way to order essiac is to use our secure online shopping site at: <http://essiac-herbal-eight.premium-essiac-tea-4less.com> or www.premium-essiac-tea-4less.com.

If you would like to place a phone order, please call Daryl toll-free @ 866-840-3389. Our product list appears on the next page. If we aren't able to assist you at the moment, please leave a message including a brief description of your request, your name, and your phone number and we will respond quickly. Please be assured that all orders are covered by our 6-month, 100% Money-Back Guarantee. For mail orders, you can use the order form enclosed and mail it with your check or money order.

Essiac Product Listing

Our most popular order size is the 3 lb. 4 oz. essiac, and we recommend this size if you've never tried essiac before. To spend the least per pound on shipping, order at least 3 lb. 4oz. at once.

Essiac Orders Designed for Aggressive Dose

(4 oz. packet brews one gallon of tea at a time. This gallon will last 2 weeks. Herbs keep for at least 1 year.)

These order sizes are listed from most popular to least popular.

<u>Weight</u>	<u>Lasts 1 person for*</u>	<u># of packets/bags</u>	<u>Price</u>	<u>Shipping</u>
3 lb 4 oz	6 months	(13) 4 oz packets	\$106.96	\$8.10
3 lb 4 oz	6 months	1 bulk bag	\$64.99	\$8.10
6 lb 8 oz	1 year	(26) 4 oz packets	\$187.99	\$10.95
6 lb 8 oz	1 year	1 bulk bag	\$124.99	\$10.95
1 lb	8 weeks	(4) 4 oz packets	\$34.99	\$4.05
1 lb	8 weeks	1 bulk bag	\$22.99	\$4.05

*Assuming the recommended 9 oz. of tea per day

Essiac Orders Designed for Maintenance Dose

(1 oz. packet brews 1 quart of tea at a time. This quart will last 10-11 days.)

<u>Weight</u>	<u>Lasts 1 person for*</u>	<u># of packets/bags</u>	<u>Price</u>	<u>Shipping</u>

*Assuming the recommended 3 ounces of tea per day

Free Essiac. Our Way of Saying, Thank You.

Giving away free essiac is our way of thanking those of you that continue to refer your family, friends and neighbors to our website. A good portion of our business comes from people who have been told about our business from previous customers or prospective customers. And, for those of you who believe enough in our product to refer your loved ones, we're going to give you free essiac for your own personal use or to give to others.

Many of our current customers have either referred a person to our website or have been referred. Until now, they haven't benefited in any way other than to know the person they referred is going to receive an excellent product. Now, we are going to reward every new referral with free essiac. It doesn't matter if you are or ever have been a customer of ours. All that matters is that you believe in our product. So, if you have found this site for the first time and you refer a customer to us, you'll get free essiac. Use it for yourself or give it to others in need. Plus, there is NO Limit on the amount of referrals you may make. You could get free essiac for a lifetime.

Requirements for Free Essiac with Referral.

There are only a few requirements to meet to qualify for free essiac. (1) The person you refer to our website has to purchase essiac. (2) When completing this purchase, they need to give us your name, email

address and phone number. This information should be submitted in the order information box in the shopping cart. (3) We will then contact you to determine what amount of free essiac you would like shipped.

How Much Free Essiac Do You Receive?

The amount of free essiac each person receives for a referral will vary. If the person you referred makes a purchase of over \$50.00, you will receive 25% of the value in essiac product. (Approximately \$12.50 worth of essiac). For any order of less than \$50.00, the percentage will range from 25% to 100%. For example, if the person you referred purchases \$2.99 worth of essiac, you will receive the exact same order. If the purchase amount is \$37.99, then you will receive between 31% to 40% of this purchase price depending on the type of packaging chosen. You will also receive free shipping on your shipment of free essiac.

Essiac Tea Dosage

For best results, take two hours after and one hour before eating (on an empty stomach).

There are three main factors that affect essiac tea dosage:

- 1. Seriousness of condition.** We advise those fighting cancer to take the aggressive treatment dose.
- 2. Tolerance for the taste of the tea.** The taste of the tea bothers some people. Although the tea tastes somewhat bitter, many people tolerate it just fine. Most people get used to the taste of the tea over time.
- 3. Body weight.** Those with lower body weight may require less essiac. Those with higher body weights may need more essiac.

AGGRESSIVE TREATMENT Dose: Recommended dosage is 9 oz. (266 ml) of tea per day, taken in three separate 3 oz. (89 ml) doses. 6-12 oz. (176-355 ml) PER Day may be used.*

--You should use this dose if you have or suspect you have a serious condition

--You should stay on the aggressive treatment dosage program for at least 5 months. After that, you can switch to a maintenance dosage of 3 oz. (89 ml) per day if you test results have returned to normal. If the original condition persists, continue on the aggressive treatment dosage until your condition improves and you're satisfied with the results.

*Essiac can be taken during traditional cancer treatments without interfering with that treatment. If you are undergoing chemotherapy and/or radiation, be aware that chemo and radiation can lessen the effects of essiac tea. If you plan to continue your chemo and/or radiation, you might consider taking up to 6 oz. (176 ml) of essiac tea three times per day. Many people have tried this with good results, but it will be your decision if you'd like to experiment with this. We've seen the typical 9 oz. (266 ml) per day work well, and we've also seen 18 oz. (533 ml) per day work well for some people.

MAINTENANCE Dose: Recommended dosage is 3 oz. (89 ml) of tea per day, and can be taken all at once. 2-6 oz. (59-176 ml) may be used. The lower end of this is more appropriate for supplementary use, while the higher of this range may be more appropriate for the treatment of a mild medical condition.

--Administer the maintenance dosage for at least 6 months after your test results have returned to normal.

--Some also take the maintenance dosage as a daily preventive supplement

--The amount of time you should stay on a maintenance essiac program will be up to you. There are various factors that affect essiac dosage. If you have questions, please contact us. Essiac can be taken indefinitely, so you may decide whether to continue to supplement daily, or to stop using essiac once the condition you're trying to address is under control.

Detox Dose: Detoxification typically is something that is done for a fixed period of time. Many people choose 3- or 6- month time periods for detoxification. However, some do shorter detoxifications. The dosage for a 2 or 4-week detoxification is 9 oz. (266 ml) of essiac tea per day.

The length of time between detoxification periods depends on three key issues:

1. Individual level of exposure to any toxin, including chemicals, pollution, diet, etc.
2. Ability of the individual to purge toxins generally.
3. Personal Preference.

How to store you essiac

Store packets of herbs in a cool, dark place, in the original packaging or packaging of your choice. Unopened packets of herbs stay fresh for a year, or longer in some cases. Do not put herbs in the refrigerator. Your brewed essiac tea must be refrigerated, since it contains no additives or preservatives. Do not attempt to store brewed tea for more than two weeks, because the tea may spoil.

A fresh batch should be prepared every 2 weeks. Store your tea in spring water gallon plastic containers or glass bottles. Amber bottles are not necessary (there is no light inside your refrigerator). Clean all containers thoroughly with hot water before using them to store you tea.

You must brew essiac tea at home to ensure maximum level of effectiveness. If you purchase pre-brewed tea the beneficial properties may be lost over time-and pre-brewed tea is also much more expensive. Brewing the tea twice is not necessary when you use the powdered herbs in our formula.

Brewing Instructions

1. Boil the necessary amount of spring water in a large pot.

The amounts for each size brew are:

To Make	Use
One gallon tea	136 oz. (4.02 L) water (This is appropriate for aggressive treatment dose)
One quart	36 oz. (1.07 L) (This is appropriate for maintenance dose)
One pint	20 oz. (592 ml) (This is appropriate if you will be traveling or for small animals)

2. Add the correct amount of essiac tea herbs.

The amounts for each size brew are:

To Make	Use
One gallon tea	4 oz. (113 grams) Herbs (Please weigh: 4 oz. dry herbs = 113 grams—but an <u>estimation</u> is 1 ¼ cup using dry measurement cups)
One quart	1 oz. Herbs (28.85 grams, estimation is one rounded ¼ cup using dry measurement cups)
One pint	½ oz. Herbs

3. Simmer for 10 minutes, stirring occasionally. Slant a cover on the pan to reduce evaporation.
4. Leave tea in pot, turn heat off, and let the mixture sit at room temperature for at least twelve hours. You do not have to boil the tea twice.
5. The following day, funnel tea into spring water gallon container and refrigerate. Do **not** strain the herbs from the tea: the tea will be slightly “thick.” The herbs themselves increase the efficiency level of the tea. Shake your container vigorously before pouring doses to disperse the remaining herb particles throughout the tea.
